[Beware the Ninja Weenies \(Weenies, #6\) by David Lubar](#)

In my opinion Beware the Ninja Weenies is a very good book because it has a lot of short stories. One of them was a kid who was focused on playing an alien game when actually there were real aliens and he didn't pay attention to the real life. Then another one is that a boy who can make a star disappear and any star and then they accidentally made the moon disappear. Then another one is about this.

The Ninja Weenies,first published in 2012, is a funny and great book I have enjoyed reading. I loved the way Mr.Lubar used various chapters to lead you to main chapter,in the middle of the book. I know after reading this book ever chapter will have you laughing and feeling creepy.
